Hello

In order to correctly size the crate for your dog that will comply with the IATA regulations can you please measure your dog and email back sizes A, B, C & D

We can call to you and measure if you require.

PLEASE NOTE – the dog must be able to sit and stand in the crate without touching the top of the crate. ALSO the dog must be able to freely turn and lie down in the crate.

A = Length, nose to bottom (not including tail)

B = Height, floor to top of head

C = Leg, Length from floor to elbow on back of leg

D = Width, measured at shoulders or widest point
